Subject: Re: CBS News seeking response

She's been pretending to cover the ATX campaign and interviewed Mayor Leffingwell (RWA chairman) this AM. I'll get a download from that interview and circle up with Niki. Thx much for help.

- CBS

+Jill and Dorothy

This is an Emmy-award winning investigative reporter. We heard she was calling last week to incident response centers and I asked her if I could help - she didn't give me any indication about the topic, and now this.

Hi there – We have some questions about sexual assaults by Uber drivers and wanted to get comment from Uber.

Basic question – we have learned of 10 incidents around the country where Uber drivers have been charged in court with sexual assault of passengers starting in January 1, 2014 through the present. We need response from Uber about these incidents.

Can someone there give me a call or give me a number to get a hold of a spokesperson? I'm going into a meeting now but I can call you (if I have a number) at 2:30PM. Our story is airing tomorrow morning. Thank you.
