127:10	Q. And so Uber knows in the context of its		
127:11	investigations that long stops and,		
127:12	quote/unquote, midway drop-offs can be signs of		
127:13	potential sexual assault occurring, right?		
127:14	A. I think, as I mentioned, there can be		
127:15	reports of a sexual assault associated with those		
127:16	product features of RideCheck. My understanding		
127:17	is that's why those features exist, in addition		
127:18	to other problematic types of reports, sexual		
127:19	assault being one of them.
